

Briefing note

New waste service starts in North East Cornwall from Monday 4 November

24 October 2024

We start the new weekly food waste and fortnightly rubbish collection service from **4 November** for people living in North East Cornwall.

You and your community will be adopting this important new service, which we're putting in place to help people reduce waste and increase recycling, for a more thriving and sustainable Cornwall.

We'll change the collections of approximately 55,000 households in Padstow, Wadebridge, Bodmin, Camelford, Tintagel, Launceston, Bude and surrounding areas over a two-week period.

The date of each household's first collection on the new service will vary according to where they live in North East Cornwall and where their property sits in our new collection schedule.

People can find their new collection day in the 'Go!' Collection Calendar we posted to them in October or by going to www.cornwall.gov.uk/myarea and entering their address.

Support through the changes

We've continued to work hard over the last few months to make sure every household in North East Cornwall has the right bins, a collection calendar, instructions, and the support they need to switch to the new service.

We've written to every household directly to tell them their new collection day and explain exactly what they need to do and when. Our recycling engagement officers continue to hold roadshows in libraries, village halls, and community centres across North East Cornwall offering face-to-face support.

But we know from the experiences of other local authorities and from the changes so far in areas 1, 2 and 3 that there will be some teething problems in the first few weeks and months. Our crews will be adjusting to new vehicles, collection rounds and schedules, and collecting food waste for the first time in your area.

We understand that some people will find it harder than others to adapt to a new collection day, separating their food waste, and using the new caddies and rubbish containers. There will also be people using our recycling services for the very first time.

In order to help you at this busy time, we have put together a checklist to help you:

- **Check your collection calendar**

The new service starts in rollout area 4 from 4 November. Most people's collection day will change when their new service starts, so it's important to double check.

Remember, waste needs to be out by 7am as collection times may also change.

This information is included in the 'Go!' leaflet which we posted out in October.

Residents can also go the My Area section of our website and enter their address to see their property information: <https://cornwall.gov.uk/my-area/>

- **Old bin collections and recycling**

Residents won't be able to use their existing rubbish bins once the new service starts. We encourage everybody to consider reusing their old bin as a garden water butt, a compost bin, a place to store firewood, or for rinsing out wet suits. If not, we can collect and - where possible - recycle it once the new service has started.

Residents **must sign up by midnight on 6 November** to access this service.

<https://www.cornwall.gov.uk/rubbish-recycling-and-waste/new-food-waste-recycling-and-rubbish-service/ask-us-to-recycle-your-old-bin/recycling-and-rubbish-service/ask-us-to-recycle-your-old-bin/>

- **Bins that haven't been delivered:**

If for any reason residents haven't received their bins or food waste caddies, they must let us know via our website (www.cornwall.gov.uk/wastechanges) or by calling us (0300 1234 141) and we'll get it sorted.

- **Keep recycling!**

We will all need to recycle our food waste, cardboard, glass, plastics, cans, paper and textiles. New or replacement bags can be ordered via our website (www.cornwall.gov.uk/recycling) or by giving us a call (0300 1234 141).

We know this is going to be a very busy time for you, as well as for us in the Waste Service and our colleagues working in our Contact Centre. With that in mind, we've put together a list below of useful links and information.

You can help us ensure we have personal support available to our most vulnerable residents by:

- Signposting people who can go online to www.cornwall.gov.uk/wastechanges for all the information and key transactions they need to switch to the new service.
- Using [Casework Assist - Cornwall Council](#) for any questions you can't find answers to online so your query goes to the right person first time and to log customer queries coming to you direct.

- Only giving the Contact Centre number to people who can't use online services/log their own queries online.
