**Jackie & Andy Walter 01288 361630**

**People with minor flu-like symptoms should stay at home in isolation for fourteen days. You should only contact the NHS 111 online service if:**
**• you feel you cannot cope with your symptoms at home**
**• your condition gets worse**
**• your symptoms do not get better after 14 days**
**Please do not go to your doctor or a hospital. There's advice online about how people can protect themselves.**
**As always there is a lot of information in the media and on social media so it's important to only use trusted sources.**

- **From the NHS**
- **Public Health England has also published information and advice**
- **Cornwall.gov.uk**
